Grading: You are responsible for the material covered in the text, lectures, and homework. The final grade will be based on class participation (might composed of quizzes, and other types of participation), projects, homework, two in class examinations and final exam. There will be no makeup exams. Each homework assignment is due in class on the assigned date. All three exams are closed book and closed notes. However, you are allowed to bring in one page (8.5"x11") of your own notes. Students are expected to bring a calculator during classes and exams. Although the exams are the same for students in both classes (Stat 4625 and Stat 5625), the grades are assigned based on different curves, one for undergraduates and the other one for graduates.

Homework:	15%
Class participation:	5%
Project 1:	10%
Project 2:	10%
Exam 1:	15% TBD
Exam 2:	15% TBD
Final Exam:	30% (According to the schedule)
